Description

Background: Background: To streamline how we evaluate, prioritize, and approve AI-related vendor or tooling requests across the company, we're launching a centralized AI Request Intake Form. This form will serve as a single entry point for internal teams to submit use cases involving AI solutions, whether vendor-led or internal builds. Submissions will be reviewed by the cross-functional AI Committee on a recurring cadence.

This system helps ensure:

- Requests are aligned with our AI strategy
- Sensitive data use is identified early (e.g., PHI/PII)
- Technical feasibility and business impact are assessed
- Vendor conversations are centralized to avoid duplication

KPIs:

- **% of AI vendor conversations centralized** (target: 90%+)
- **Avg time from submission to initial review** (target: <7 days)
- **# of approved AI initiatives per quarter**
- **# of duplicate/unsanctioned AI vendor engagements** (target: 0)
- **% of requests with identified PHI/PII risk** (baseline tracking)

Follow Up:

- Finalize and publish the intake form (Google Form, Typeform, Jira, etc.)
- Announce process via Slack/email to all departments
- Create Airtable or Jira dashboard for triage view
- Set recurring AI Committee review cadence (biweekly/monthly)
- Assign initial reviewers (Ops, Security, Product, Legal reps)
- Define routing flow for flagged data privacy or IT support items

AI Intake Form for Portal

Use the following to build the form in Jira (Service Desk Portal), Google Forms, Airtable, or Typeform and map to AI Board (need to create)

AI Request Intake Form – Field Outline

1. **What problem are you trying to solve?**
   Short answer

e.g., Automating prior auth review to save time on manual approvals.

2. **Team or Department submitting request**
   Dropdown menu:
   - Clinical Ops
   - Product
   - Rev Cycle
   - Marketing
   - Tech
   - Legal/Compliance
   - Other
3. **What's the potential business impact?**
   Dropdown (choose one):
   - Increase efficiency
   - Reduce cost
   - Improve patient/member experience
   - Revenue driver
   - Risk/compliance-related
   - Other
4. **What's your desired outcome or success metric?**
   Short answer
   e.g., Reduce manual processing time by 50%, or improve patient satisfaction.
5. **Do you already have a vendor or tool in mind?**
   Radio:
   - Yes → [Text field for vendor name]
   - No
6. **What type of data would this tool need access to?**
   Checkboxes (multi-select):
   - PHI (e.g., patient health data)
   - PII (e.g., names, emails)
   - Internal operations/business data
   - No sensitive data
   - Not sure

7. **Does this tool need to connect to internal systems?**
   Yes/No
   If yes: *Which ones?* [Short answer]
8. **How urgent is this request?**
   Dropdown:
   - Critical (Q1)
   - Important (this year)
   - Exploratory (no deadline)
9. **Point of contact for this request**
   Name, email, and team (Short answer)

Comments

Comment by Solounge Bowen [08/Sep/25]

Next Steps

- Create a new request type specifically for any AI related request
- Create a working session with team to review this set up

Comment by Solounge Bowen [17/Sep/25]

Jasmine Sekhon I've completed the form and created a AI Request type under Tech Ops portal. Now that the form is linked, it is considered live and ready to be used
