[Tech Ops] Vendor/ Issue Type:	Project/ Workflow/ DevOps - Jira/Atlassian
[TO] Key Performance Indicator:	Data Capture Rate, Improved User Experience, IT, Reduction of cost, Revenue cycle improvements
KPI Measure:	Removed 15+ unused projects and 30+ unused work types to enhance system speed and user experience.Eliminated $8,699.03 in monthly app costs, saving $116,452/annually
Request participants:	None

Description

Phase Focus: Immediate Security & Stability

This phase addresses the most critical security vulnerabilities and system stability issues identified in the Scleraworx health check. The primary goal is to close major security gaps (app installation permissions) and remove the most significant sources of system clutter (orphaned automations and stale, high-priority projects) to stabilize the instance immediately.

Task	Detail
Restrict App Installation	Change permissions to allow **only Site Admins** to install new applications.
Remove Orphaned Automations	Remove the **55 unused/orphaned automations**.
Archive High-Priority Projects	Begin the archiving process for the **8 highest-priority stale projects** immediately.
Remove Unused Trial Apps	Uninstall all unused free trial applications.

Comment by Solounge Bowen [14/Oct/25]

I contacted Missy Sturges, the lead on nearly seven projects for her team, to confirm whether they can be archived or deleted.

Projects to confirm

- Amina's Jira project (last used 3 months ago)
- Darnisha Amboree's Jira Project (last used 2 years ago and only has two tickets)
- Heather's Project (never used)
- Jasmine Moreno's (last used 2 years ago)
- Kelly Quintela (last used 9 months ago)
- NYC Projects (never used)
- [+Practice Manager |EMR Template Training (last used 3 years ago)+|https://kindbody.atlassian.net/jira/core/projects/PMETT/board?filter=&groupBy=status&atlOrigin=eyJpIjoiNTYwOWQxOWVmMDFiNDBlM2EyYzVjZTVkNjI3OGY3NjQiLCJwIjoiaiJ9]

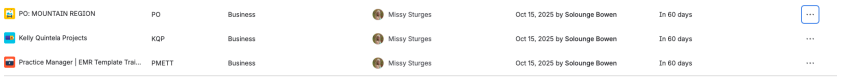
Comment by Solounge Bowen [14/Oct/25]

Updates

- I've created a template Default Dashboard that can be used for anyone needing a dashboard
  - https://kindbody.atlassian.net/jira/dashboards/10000
  - Began with a total of 525 filters, will begin removing the unused filters
    - https://kindbody.atlassian.net/secure/admin/filters/ViewSharedFilters.jspa?atl_token=8df56791ee7d8aec7bee758800211dde618614e3_lin
  - Began with 91 dashboards, will begin removing unused dahboard

Comment by Solounge Bowen [15/Oct/25]

Per contacting Missy, she confirmed which ones can be removed however with the premium requirement I am unable to archive and only able to send to trash to live for 60 days before completion. Will need to look at what Premium has to offer



Unable to embed resource: 10406 of type application/octet-stream PO: MOUNTAIN REGION	PO	Business
Unable to embed resource: 10416 of type application/octet-stream Kelly Quintela Projects	KQP	Business
Unable to embed resource: 10412 of type application/octet-stream Practice Manager	EMR Template Training	PMETT

Comment by Solounge Bowen [15/Oct/25]

I went ahead and got a 30 day trial of the Premium so that I can archive the projects that are no longer used. I’v also cancelled the Trial so that we will not be charged at the end of the month.

Update

- Since meeting with the vendors on their review, I've went ahead and archived/deleted 15+ unused projects, Over 30+ unused work types, and removed over 20+ orphaned automations.
- Restricted Site admin access from users who do not need that level of access

Comment by Solounge Bowen [22/Oct/25]

Update : After review the most recent invoice sent from Scleraworx, I was able to review/confirm which add-ons are not being used

Apps to Remove

- **HelpDesk+** - With the transition of people submitting tickets through the portal instead of Slack caused us to not need this app any longer ultimately saving **$613.50/monthly**
- **Agile User Story Map, Portfolio Roadmaps & Persona for Jira -** Confirmed with Engineering and SRE/DevOps that this is no longer used and can be removed. THis saves **~$390.40/monthly**

Apps to Review

- **Asset Management for Jira - IT Assets & License Manager -** This can potentially be useful. Will need to look into this further to see if this should be cancelled. Current we are being charged **$744.96/ monthly**
- `Jira Misc Workflow Extensions (JMWE) for Jira` - Currently this is not being used and confirmed this is linked with AppFire which is also wih HelpDesk+. I will look into this feature to see if needed. Currently we are being charged **$437.88/monthly**

Apps to Keep

- `Jira (Cloud) Standard 299 Users`
- `Jira Service Management (Cloud)` - Will need to review who are the 184 agents set . This will decrease cost drastically once cleaned up
- **Calendar for Jira** - I recommend keeping this as I know recent teams such as marketing use the calendar feature. The only thing in question is who are the 285 users set here? This can potentially bring down the cost
- **Checklists for Jira -** Heavily used within our IT teams

Findings

- **Apps to Remove & Savings**
  - HelpDesk+ → **$613.50/monthly**
  - Agile User Story Map, Portfolio Roadmaps & Persona for Jira → **$390.40/monthly**
  - `Jira Misc Workflow Extensions (JMWE) for Jira` → **$437.88/monthly**
  - Total monthly savings → **$1,441.78**
  - Total annual savings → **$17,301.36**
- **Asset Mgmt for Jira**
  - I’ve reviewed Asset Management for Jira and confirmed this si extremely useful and could potentially be an All-In-One replacement for SnipeIT
  - I’ve already began running test of importing current assets in SnipetIt into Jira to see how we can implement this into the HelpDesk workflow
  - Came across a few Youtube videos on it’s features and how to use it within existing projects
    - https://youtu.be/BSq4UE_mjQY?si=IaufpMhEEq6dt86h

Comment by Solounge Bowen [28/Oct/25]

Noticed that the Calendar app actually was not being used and instead a built Calendar feature from Jira is used more. Also noticed that the Jira Cloud users also have not been using it , I’ve confirm about 100 users actively use Jira cloud. I’ve confirmed this would be saving

- **Jira Cloud after removing inactive users = $1,633 / monthly &$ 19,596K / annually**
- **Calendar App = $203/ monthly &** $**2,500 / annually**
- Downgrading users access to Customer only = saves **$65,055/annually**
- HelpDesk+ → **$613.50/monthly & $19,362/ annually**
- Agile User Story Map, Portfolio Roadmaps & Persona for Jira → **$390.40/monthly & $4684.80 / annually**
- `Jira Misc Workflow Extensions (JMWE) for Jira` → **$437.88/monthly & $5254.56 annually**
- Total Savings for Jira **= saving $116,452/annually**
